Extract om Letter No. ACB. 1786—AC. 36 (1)—47, dated 19th December 1947 from the Chief Officer, Agricultural Credit Department, Reserve Bank of India, Bombay, to the Registrar of Co-operative Societies in Mysore, Bangalore.

A. *Standard of Fluid Resources.*

1. 40 percent of the deposits at call or on current account and cash credits and overdrafts already sanctioned but not drawn.

2. 25 per cent of the savings deposits.

3. 25 per cent of the fixed deposits maturing within 3 months.

4. 12½ per cent of the fixed deposits maturing within 6 months.

B. *The forms in which the fluid resources may be maintained and the extent to which they can be included among fluid resources.*

1. 100 per cent of the cash on hand, balances with banks and post office savings bank.

2. 90 per cent of the market value of Government securities including the postal cash certificates or the National Savings Certificates.

3. 80 per cent of the market value of the debentures of land mortgage banks and also of other trustee securities such as Municipal loans, etc.

4. 80 per cent of the fixed deposits with other banks.

Where financial accommodation in the form of overdraft, cash credit or otherwise has been arranged with other banks against the pledge of securities or fixed deposits, full amount of the undrawn portion of the accommodation may be included in the fluid resources; but the securities or the fixed deposits so pledged should be omitted for the purpose of calculating the amount of fluid resources.

The practice follows by various Provinces and States with regard to the inclusion of fixed deposits with other banks in fluid resources was the subject matter of a circular letter from us, No. ACD. 790—AC. 36 (1) 45-46 of the 2nd November 1946, in which we suggested that fixed deposits with other approved banks may be included among fluid resources upto 80 per cent of their amount, since ordinarily fixed deposit receipts with good banks serve as cover for overdrafts from the bank issuing the fixed deposit receipt. We are glad to note that most of the Provinces and States have agreed to our suggestion; we have, therefore, recommended the inclusion of fixed deposits among fluid resources in B (4) above. The presumption, of course, is that the banks concerned are working on approved banking lines, are financially sound and are on the list of the banks approved by the Registrar of Co-operative Societies for investment of Co-operative funds.
